This is a starter/sample knowledge document created to demonstrate RaahAI's Retrieval-Augmented Generation (RAG) pipeline. Verify all figures against official sources before production use.

Contents

1. Passport Services	Page 3
2. CNIC Services	Page 5
3. Business Registration	Page 7

This is a STARTER / SAMPLE document meant to demonstrate the RAG ingestion pipeline (ingest_pdf.py → ChromaDB → query_rag.py). The process steps below are general-knowledge summaries and may not reflect the latest official fees, forms, or procedures. Before using this in a real demo or production system, verify and replace this content with current information from the official sources (NADRA, Directorate General of Immigration & Passports, and SECP).

1. Passport Services

1.1 Overview

Pakistani passports are issued by the Directorate General of Immigration & Passports (DGIP). Citizens can apply for a new passport, renew an expiring/expired passport, or report a lost passport through designated Passport Offices or the Pak-Identity online portal.

1.2 Passport Types

There are several categories of machine-readable passports (MRPs) available to citizens: Normal validity (5 years, 36 or 72 pages), Urgent processing (faster issuance for an additional fee), and Fast Track processing (fastest issuance, highest fee). Booklet size (36-page or 72-page) can be selected depending on expected travel frequency.

1.3 Required Documents — New Passport (Adult)

- Valid CNIC (original + photocopy)
- Passport application form (filled online via Pak-Identity or in person)
- Proof of payment of the applicable passport fee
- Old passport, if renewing (original)
- Two passport-size photographs (if applying manually at a walk-in counter)

1.4 Required Documents — Minor (Under 18)

- Child's Form-B / Juvenile Card from NADRA
- CNIC of both parents (original + photocopy)
- Marriage certificate of parents (in some cases)
- Applicant's (parent/guardian) presence at the time of application

1.5 Renewal Process

A passport can be renewed up to a certain number of months before its expiry, or after it has expired. Renewal does not require a new CNIC unless the current CNIC has also expired. Renewal applications are submitted the same way as new applications, but the old (expiring/expired) passport must be submitted along with the application.

1.6 Processing Time & Fees (Indicative)

Category	Booklet	Approx. Processing Time
Normal	36 pages	3-4 weeks
Urgent	36 pages	7-10 working days
Fast Track	36 pages	2-3 working days

Normal	72 pages	3-4 weeks
--------	----------	-----------

Note: Actual fees and processing times vary and change periodically. Always confirm current figures on the official DGIP website before advising citizens.

1.7 Common Rejection Reasons

- Mismatch between CNIC details and passport application details
- Incomplete or blurry supporting documents
- Unpaid or incorrectly paid fee challan
- Missing parent/guardian documents for minor applicants

2. CNIC Services

2.1 Overview

The Computerized National Identity Card (CNIC) is issued by NADRA (National Database and Registration Authority) to all citizens aged 18 and above. NADRA also issues the Juvenile Card (Form-B/CRC) for minors, which is often a prerequisite for a minor's passport application.

2.2 New CNIC — Required Documents

- Proof of identity of parents (their CNIC numbers)
- Birth certificate or Form-B
- Proof of residence (utility bill, rent agreement, etc.)
- Biometric verification (fingerprints + photograph) at a NADRA center

2.3 CNIC Renewal

CNICs are typically valid for 10 years for most citizens (5 years in some cases, e.g. overseas or specific categories) and must be renewed before expiry. Renewal requires the existing CNIC (or its number if lost), an updated photograph, and biometric re-verification.

2.4 Correction / Modification

Citizens can request corrections to details such as name spelling, address, or marital status through NADRA's Modification Form. Some corrections (e.g. date of birth, father's name) require additional supporting documents such as a matriculation certificate or affidavit.

2.5 Lost / Stolen CNIC

A lost CNIC should be reported and a duplicate requested as soon as possible via NADRA's e-Sahulat centers, NADRA Registration Centers (NRCs), or the Pak-Identity portal. A police report is not usually mandatory but is recommended in cases of suspected misuse.

2.6 Processing Categories

Category	Approx. Processing Time
Normal	20-30 working days
Urgent	10-15 working days
Executive	1-3 working days

2.7 Privacy Note

CNIC numbers and biometric data are highly sensitive. Any system (including RaahAI) that processes CNIC images or numbers should mask displayed numbers, avoid persisting raw images beyond the active session, and follow applicable data protection practices.

3. Business Registration

3.1 Overview

Company and business registration in Pakistan is primarily handled by the Securities and Exchange Commission of Pakistan (SECP) for companies, and by provincial/federal tax and trade bodies for sole proprietorships and partnerships. SECP offers an online portal for company incorporation.

3.2 Business Structure Options

- Sole Proprietorship — simplest, registered mainly for tax purposes (FBR registration)
- Partnership — registered under the Partnership Act, requires a partnership deed
- Single Member Company (SMC) — a company with one shareholder, registered with SECP
- Private Limited Company — most common structure for startups and SMEs, registered with SECP
- Public Limited Company — for larger businesses planning to raise public capital

3.3 Company Registration — Required Documents

- CNIC copies of all directors/shareholders
- Proposed company name(s) for availability check
- Memorandum of Association (MOA) and Articles of Association (AOA)
- Registered office address proof
- NTN (National Tax Number) — obtained separately via FBR if not already issued

3.4 Step-by-Step Process (Private Limited Company)

1. Reserve a company name via SECP's e-Services portal
2. Prepare and upload MOA and AOA
3. Submit incorporation documents and pay the registration fee
4. Receive Certificate of Incorporation from SECP
5. Register for NTN with FBR
6. Register for sales tax (if applicable) with FBR/provincial revenue authority
7. Open a corporate bank account using the incorporation certificate

3.5 Processing Time (Indicative)

Step	Approx. Time
Name reservation	1-2 working days
Incorporation approval	3-5 working days
NTN registration	1-2 working days

3.6 Common Issues

- Proposed company name rejected for being too similar to an existing registered name
- Incomplete MOA/AOA formatting not matching SECP templates
- Delay in NTN issuance due to mismatched address/documents
- Bank account opening delays due to incomplete incorporation paperwork

Disclaimer

This document is a sample/starter knowledge base created for demonstrating RaahAI's Retrieval-Augmented Generation (RAG) pipeline. It is NOT an official government publication. Fees, processing times, and required documents change periodically — always verify against the official NADRA, DGIP, FBR, and SECP websites before using this information to advise real citizens.
